Author index to volume 117

Alario, F.-X., R.E. Matos and J. Segui, Gender congruency effects in picture naming 185
Allwood, C.M. and M. Johansson, Actor–Observer differences in realism in confidence and frequency judgments 251
Anderson, D.I., see Lejeune, L. 13

Baudouin, J.-Y. and G. Tiberghien, Symmetry, averageness, and feature size in the facial attractiveness of women 313
Beek, P.J., see van Mourik, A.M. 121
Blin, O., see Bonin-Guillaume, S. 1
Bonin-Guillaume, S., O. Blin and T. Hasbroucq, An additive factor analysis of the effect of depression on the reaction time of old patients 1

Csathó, Á., G. van der Vloed and P.A. van der Helm, The force of symmetry revisited: symmetry-to-noise ratios regulate (a)symmetry effects 233

de la Torre Vacas, L., see Espinosa-Fernández, L. 295

Edwards, J.A., see Ryan, L.J. 205
Espinosa-Fernández, L., L. de la Torre Vacas, M[a].d.R. García-Viedma, A. García-Gutiérrez and C.J. Torres Colmenero, Temporal performance in 4–8 year old children. The effect of chronometric information in task execution 295

Gagnon, S., see Lemay, M. 139
García-Gutiérrez, A., see Espinosa-Fernández, L. 295
García-Viedma, M[a].d.R., see Espinosa-Fernández, L. 295

Hasbroucq, T., see Bonin-Guillaume, S. 1
Henry, K., see Ryan, L.J. 205
Heuer, H., T. Kleinsorge, W. Klein and O. Kohlisch, Total sleep deprivation increases the costs of shifting between simple cognitive tasks 29

Elsevier B.V.
doi:10.1016/S0001-6918(04)00095-2

Johansson, M., see Allwood, C.M. 251
Jouen, F., see Lejeune, L. 13

Kappers, A.M.L., The contributions of egocentric and allocentric reference frames in haptic spatial tasks 333
Klein, W., see Heuer, H. 29
Kleinsorge, T., see Heuer, H. 29
Kohlisch, O., see Heuer, H. 29
Koning, A. and R. van Lier, Mental rotation depends on the number of objects rather than on the number of image fragments 65

Lejeune, L., R. Thouvarecq, D.I. Anderson and F. Jouen, Kinesthetic estimation of the main orientations from the upright and supine positions 13
Lemay, M., S. Gagnon and L. Proteau, Manual pointing to remembered targets...but also in a remembered visual context 139

Madison, G., Detection of linear temporal drift in sound sequences: empirical data and modelling principles 95
Matos, R.E., see Alario, F.-X. 185

Proteau, L., see Lemay, M. 139

Ridderinkhof, K.R., see Span, M.M. 155
Roß, L., see Sangals, J. 275
Robey, T., see Ryan, L.J. 205
Ryan, L.J., K. Henry, T. Robey and J.A. Edwards, Resolution of conflicts between internal and external information sources on a time reproduction task: the role of perceived information reliability and attributional style 205

Sangals, J., L. Roß and W. Sommer, Time pressure effects on information processing in overlapping tasks: evidence from the lateralized readiness potential 275
Saunders, K.A., see Voyer, D. 79
Segui, J., see Alario, F.-X. 185
Sommer, W., see Sangals, J. 275
Span, M.M., K.R. Ridderinkhof and M.W. van der Molen, Age-related changes in the efficiency of cognitive processing across the life span 155

Thouvarecq, R., see Lejeune, L. 13
Tiberghien, G., see Baudouin, J.-Y. 313
Torres Colmenero, C.J., see Espinosa-Fernández, L. 295

van der Helm, P.A., see Csathó, Á. 233
van der Molen, M.W., see Span, M.M. 155
van der Vloed, G., see Csathó, Á. 233
van Lier, R., see Koning, A. 65
van Mourik, A.M. and P.J. Beek, Discrete and cyclical movements: unified dynamics or separate control? 121
Voyer, D. and K.A. Saunders, Gender differences on the mental rotations test: a factor analysis 79
